New Policy at the Lyric.

"The Drug Terror," this week's offering at the Lyric, has proven its "purch" by attracting capacity audiences. Its story, moral lesson and the sensational manner in which it has purposely been produced, make it one of the best attractions in pictures yet shown in Richmond.

Next week the Lyric will inaugurate a half-week policy, new photoplays being presented each Monday and Thursday. The attraction for next Monday, Tuesday and Wednesday will be "The Daughters of Men," one of Charles Klein's biggest successes on the dramatic stage, which has proven equally successful in the film world.

Richmond County Farmer Meets Death During Electric Storm.

Lancaster, June 2.—During the electric storm that swept over this region Saturday afternoon. William Fones, a farmer living near Farnham Church, in the lower part of Richmond County, was struck by lightning and instantly killed. He was sitting in one corner of his house at the time, and several members of his family who were in the room with him, were burned and stunned, but not seriously infured. Fones was about fifty-five years old.

The Lancaster High School has closed its eighth session. A very large crowd attended the final exercises, which, on account of the hot weather, were held on the court green. Certificates of distinction were awarded to a large number of pupils, and diplomas of graduation to Miss Hattle Talley, of Regina, and Miss Josephine Keyser, of Sonora.

Reports from the menhaden fishing steamers, which for the past week have been scouring the waters of the Chesapeake and those along the Atlantic coast in search of the bunkers, indicate that while the catch has not been large, all the steamers have made fairly good catches, averaging 40,000 for each steamer per day. These engaged in this important industry are encouraged to believe that as the season advances the fish will become more plentiful.

showers, however, have come too late to do much good to the peas and other early truck that had been purched up before the rain began to fall.

Fair Building Destroyed.

Fredericksburg, Va., June 2.—The two-story main building of the Rappahannock Agricultural and Mechanical Pair Society, on the fair grounds here, was destroyed by fire during last night, it is not known how the fire originated, but it is believed that it may have originated from a lighted match, cigar or cigarette stump. Parties went to the scene, but it was impossible to do anything to save the building, which is beyond the line of city water works. The building was erected twenty-five years ago. The loss is partially covered by insurance. The building will be rebuilt in time for the next annual fair in September.

COMMITTEE CONSIDERS POWERS TO GIVE I. C. C.

Ensign Parrish Commended for His Three Hundred and Fifty Delegates D. H. Winslow to Have Charge of How Far It Should Be Permitted to Go in Examining Records Sub-

rier or any of its arouts, officers, attorneys or of any corporation with which the carrier has business dealings. Senators Brandegee. Lippitt and Salisbury Indicated that they letieved the provision too drastic. "It looks," said Senator Brandegee, "like giving the commission power to go on issing expeditions."

Senator Lippitt criticized the commission's further proposal that records be kept until the commission gives authority for their destruction.

Judge Robert S. Lovett, of the Union Pacific, and several representatives of other railroads will appear to-morrow before the committee to discuss the same bill.

Commissioner Clements told the committee he approved the House bill prohibiting interlocking directorates holding companies and making the commission supervisor of the Issue of railroad securities.

"Government ownership is to be avoided as long as it can be," he and "I should dread the possibility and results. The opportunities for graft would be great. I would rather not see it come.

"I do not think the vast majority of the American people object to paying rates that will give a moderate income to the roads, only they want to know that they are paying on what actually has been invested.

# Painless Dental Work

Our patrons often ask: "How are you able to charge low prices for such beautiful dental work?" The answer is: There is a large profit in dental work, and partly because we prefer a large practice at small prices to a small practice at large prices, and partly because the combination of several men in one office minimizes expense. Also, by supplying our different offices we buy an immense lot of teeth, gold and other dental supplies, thereby saving a large discount. Therefore we can, by doing dental operations PAINLESSLY and in less time, turn out the best dental work at moderate cost.

# The Monster of Them All

Feet, All Complete—Quaker

Herb Extract Did It.

Mr. R. A. Evans, a young man nineteen years of age, painter by occupation, resides with his parents at 1817
Maury Street. Has been feeling poorly
for some time, but had very few symptems of tapeworm. He would have
awful cramps in lower bowels, sometimes a little headache, nasty, silmy
taste in mouth, especially in the morning, breath very short; appetite at
times was ravenous, again scarcely
cat anything, but had a longing for
drinking water; food he ate didn't
seem to do any good; he felt there was
something wrong with him. He had
been reading in the papers about the
many people that were benefited from
the use of the worker tapeworm ninety
store. The Health Teacher says that
the expelling of the forty-one-foot
taking the Quaker Herb Extract six
days, this monster, after only five days,
should convince even the most skepticat that the Quaker Herb Extract does
positively expel worms. The Health
Teacher when here proved to the people of Richmond that this medicine is
different. It does the work others have
left undone. You must be convinced
that as a worm and germ destroyer
it has no equal. It matters not if it's
a tapeworm that saps the very life's
blood out of the victim's body, or if
